Kit Design & Manufacturing files - bundle contents description

SCHEMA archive:

- The schematics in EDA tool format (note 1)
- PDF printouts of these schematics

PCBA archive:

- The PCB design file in EDA tool format (note 2)
- The board assembly views, top and bottom, in PDF format

GERBER archive:

- The GERBER files (PCB layers manufacturing plots)

boardREV archive:

- The board Bill Of Material (BOM) in Excel format
- The jumpers settings, specific to that board revision

note 1: Most of our board schematics are designed with Orcad. The file extension is .DSN
A few have been made with Cadstar. In that case the file extension is .SCM

note 2: Most of our board PCBs are designed with Allegro. The file extension is .BRD
A few have been made with Cadstar. In that case the file extension is .PCB
